

# ABRASIVE FOAM DISCS 2000

**INGENIOUS  
CAR CARE**  
Products for professionals

**Description:**

Cartec Abrasive Foam Discs 2000 are premium abrasives engineered for the automotive industry. Leveraging advanced technology, these discs provide an exceptional finish on vehicle exteriors. Their innovative design continuously exposes new abrasive surfaces during use, promoting a uniform, smooth finish and prolonged durability. They are perfect for minor defect removal and paint rectification tasks.

**Product benefits:**

- ✓ Durable performance: designed for longevity, ensuring a long lifespan under regular use conditions.
- ✓ Consistent quality: maintains a uniform finish with an efficient cut from start to finish.
- ✓ Adaptive design: the foam backing smoothly adapts to textures, ensuring a perfect finish.

**Application:**

Applications include minor defect removal and paint rectification tasks.

**Instructions for use:**

- ✓ Machine Use: Attach to compatible sanders as per manufacturer’s guidelines.
- ✓ Hand Use: Can be used manually for hard-to-reach areas or fine detailing, use 3235/5 for 150mm and 3235/4 for 75mm.
- ✓ Using the disc damp is generally considered the best approach for superior effectiveness.
- ✓ Use a soft interface pad (3231/3 for 150mm, 3231/4 for 77mm) for maximum matting effect.

**Safety and dandling:**

- ✓ Store in a cool, dry place away from direct sunlight.
- ✓ Use appropriate personal protective equipment and avoid prolonged exposure to dust.

**Required items:**

3013/1

3017/8

3039/10

1101/10
