

Q1® Masking Tapes

Features, Advantages, Benefits.

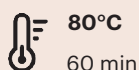

Rev02_0726_FAB_1_EU

Q1® CarBasic Masking Tape

Your all-purpose solution for general masking and repair jobs.

- Thickness: **120 µm**
- Elongation Break: **7%**

An all-purpose masking solution designed for general automotive repairs. It offers **medium adhesion** suitable for painted metal, rubber, glass, and chrome surfaces. Ideal for spray-painting applications, it delivers **strong holding power**, even in overlapping areas with masking paper or film.

Q1® Premium Masking Tape

Instant adhesion, sharp edges and a bright yellow shade.

- Thickness: **125 µm**
- Elongation Break: **7%**
- UV Resistance: **3 Days**

Engineered for precise automotive refinishing tasks, it combines **consistent unwinding** and **excellent conformability**. It adheres well to curved and irregular surfaces without lifting or tearing and is compatible with both solvent and water-based paints. It ensures **sharp paint edges** and **clean removal**.

Q1® High Performance Masking Tape

Designed for demanding projects.

- Thickness: **130 µm**
- Elongation Break: **8%**
- UV Resistance: **3 Days**
- **Water Resistant**

Designed for **critical automotive aftermarket jobs**, for wet sanding & spray-painting operation in car repair application with most common paints and lacquers. It ensures a secure bond on **multiple surfaces**, preventing lifting or overspray. It offers **outstanding conformability** on complex surfaces.

Q1® Ultimate Masking Tape

Elevating collision repair excellence.

- Thickness: **170 µm**
- Elongation Break: **9%**
- UV Resistance: **5 Days**
- **Water Resistant**

The top-tier choice for high demanding masking applications in collision repair. Its robust, thicker crepe-paper backing offers **exceptional conformability**, allowing it to stretch and mold precisely to any surface without tearing. It ensures **clean removal** without adhesive residues and **excellent resistance to slivering**.
